Especially recommended for

Description

Complex at the sea! Please see movie.

In any case you will enjoy the magnificent views of one of the most beautiful bays on the Black Sea coast and feel the scent of the sea breeze in the foot of Strandja mountain!

Let us introduce Saint John Resort in Sozopol, beach of "Smokinya" - our newest construction site which is planned to become a part of the Rainbow group of complexes.

The Beach of "Smokinya" is a place where Bulgarian citizens as well as many guests from Russia and The European countries prefer to spend their summer holidays. This is where we have decided to build an exclusive residential complex for those who wish to live away from the hustle and bustle of the big city, in the privacy of nature, but with all modern conveniences at the same time: all of the apartments will be appointed with contemporary lifestyle amenities for a comfortable stay in order to meet the highest expectations of the residents. A special architectural solution is what makes the complex stand out from the rest of the buildings. The Mediterranean architectural style of Saint John - Sozopol has been borrowed from the already completed Rainbow Holiday Complexes, particularly from Romance Marine, Sunny beach.

Apartments in Saint John Resort are a good investment. Properties situated close to the sea coast (Saint John will be 150 m from the beach) are becoming more and more valuable. Besides summer is not the only season when you can stay here: Saint John will provide year-round comfort. Take a look through our offers and choose the one that suits you most. You can be sure it will be the best one!

The property consists of two buildings with a total area of 10 000 sq. m.

Attractions

Saint John Resort is located near the cleanest and most scenic beach in the region and the forest of "Strandja" Nature Park at the same time. This is the place where the mountain meets the sea, where you can enjoy unique natural sights - rocky coast, greenery and sand dunes. The beach is one of the most beautiful and tranquil places on the Black Sea coast of Bulgaria. The beach area is being guarded and kept clean. There are numerous restaurants, as well as opportunities to practice water sports. Snorkeling in the water of "Smokinya" beach is great fun because of its rich marine life. The beach is 3km long, the shore is gently sloping and the access to the water is easy. The distance between the centre of the town and the beginning of the beach area is 5,5 km, which is one of the main advantages of the complex.

The town of Sozopol is considered to be one of the most preferred resorts in Bulgaria. The sea, the sand and the sun along with its location near an old historical town prove this reputation to be well deserved. The town consists of an old and a new part. If you take a walk along the small streets of the Old Town, you will see many old houses, you may visit the museum and the gallery or have a look at the ships at the port. The new part of Sozopol is where most of the hotels, restaurants and places of entertainment are concentrated.

Saint John - Sozopol is named in honor of John The Baptist - whose Holy Relics were found on the island of St. John near Sozopol in 2010. These relics are exposed in the Church of Saints Cyril and Methodius in Sozopol for the veneration of the numerous faithful and pilgrims visiting the church each year.
